Welcome to my Heart & Stroke Virtual Canvass page!

Did you know that heart disease and stroke can happen to anyone, anywhere, at any age? 1 in 5 deaths in Canada are caused by heart conditions or stroke. That's a life taken every 7 minutes – a heartbreaking statistic that devastates families and communities.

Please donate to help Heart & Stroke achieve its vision of a world where all people in Canada receive the care they need for their heart and brain health.

Thank you for all of your support!
