Help Shape Heart Failure Care in Canada

Are you or a loved one living with heart failure?

Share your experience. Help improve care.

Scan the QR code to participate, or visit https://ubc.ca1.qualtrics.com/jfe/form/SV_9nN3QQrf0vSi1JY

Why we need your help:
Heart failure is a leading cause of hospitalization and death in Canada. Real-world patient experiences are still not fully understood. This survey will help improve understanding, awareness, and future care.

Who can participate:
If you are 19 years of age or older, live in Canada, and have lived experience with heart failure as a patient or caregiver, we want to hear from you.

About the survey:
The survey takes approximately 10–15 minutes to complete, responses remain anonymous, and your input will help inform future education, advocacy, and research efforts.

HeartLife FOUNDATION
Canada's patient-led heart disease charity
"It's About Life, Not Failure™"
